

GenMob- Gender and Mobility

IGOT - Institute of Geography and Spatial Planning of the University of Lisbon

Project partner: Noroff University College

The project is proposing an innovative methodology in gender studies and leads to questioning the pattern of the male mobility chain as the standard reference. This methodology consists in: measuring, recording, organizing, analysing and visualizing, combining new information technologies.

The Programme PT07 addresses some of the main gender equality issues faced in Portugal, with a focus on work-life balance and women's participation in decision making bodies. It consists of three pre-defined projects, two open calls for proposals (1st and 2nd Open-Call) and a small scale funding (Small Grant Scheme).

Pre-defined projects :

Men's Roles in Gender Equality Perspective

CITE - Commission for Equality in Labour and Employment

Project partners: Institute of Social Sciences of the University of Lisbon, Universidad Autónoma de Madrid and Norwegian University of Science and Technology

The aim of this project is to promote awareness and knowledge on men and gender equality in Portugal, in the context of changing practices and policies, creating a platform for public debate and dissemination which will incorporate the perspectives of stakeholders.

Projects selected under the 1st Open-Call:

Break Even - Promoting Gender Equality in Business

ISEG - School of Economics and Management of the University of Lisbon

Project partners: Centre for Studies for Social Intervention, Interdisciplinary Centre for Gender Studies of the ISCSP/UL and Centre for Gender Research of the University of Oslo

The project follows an innovative approach: first, it is aimed at drawing up of tailor-made interventions in companies, according to their specific realities and challenges; secondly, it aims to design tools specifically geared towards the promotion of gender equality in decision-making/leadership positions and the elimination of the gender pay gap.

Projects selected under the 2nd Open-Call:

Local Gender Equality

CES - Centre for Social Studies of the University of Coimbra

Project partners: Municipalities of Ferreira do Alentejo, Lagoa, Mangualde, Pombal and Póvoa de Lanhoso, CEFA Foundation and Centre for Gender Research of the Oslo University

This project aims to provide methodologies and tools for the gender equality mainstreaming of policies, processes and practices at the local level. It will apply participatory methodologies involving both the members of the consortium and the final direct (municipalities) and indirect (local actors in different domains) recipients.
